PROJECTS

Badminton Academy website :-

📅 09/2024 📍 Pune, India

Short summary of your work

- A Badminton Academy Website is a web-based application designed to provide information, manage registrations, and streamline processes related to badminton coaching and training.
- Used modern web technologies like HTML5, CSS3, JavaScript, and frameworks such as React.js and MERN STACK for building dynamic user interfaces.

Weather Forecast Web Application:-

📅 02/2024 📍 Islampur, India

Short summary of your work

- Developed a fully functional weather forecasting web application that provides real-time weather data, including temperature, humidity, wind speed, and precipitation forecasts using APIs like Open Weather Map
- Used modern web technologies like HTML5, CSS3, JavaScript, and frameworks such as React.js (or Angular/Vue, depending on your tech stack) for building dynamic user interfaces.

Cloth Shop Management System:-

📅 01/2023 📍 Islampur, India

Short summary of your work

- Developed a comprehensive Cloth Shop Management System using ASP.NET and MySQL to streamline the operations of a retail clothing business, including inventory management, sales tracking, and customer management.
- Designed and implemented a user-friendly interface with ASP.NET Web Forms/MVC (or Razor Pages, depending on the architecture) to simplify daily operations for shop staff and managers.
- Designed and implemented a user-friendly interface with ASP.NET Web Forms/MVC (or Razor Pages, depending on the architecture) to simplify daily operations for shop staff and managers.

SUMMARY

Enthusiastic and motivated Full Stack Developer with a strong foundational knowledge in HTML, CSS, JavaScript, and the MERN stack. Adept at building responsive web applications and creating user-friendly interfaces. A quick learner with a passion for coding and problem-solving, seeking to leverage skills in a dynamic software development environment.

EXPERIENCE

Intern

Market Reglance Pvt. Ltd. Pune

📅 06/2024 - 11/2024 📍 Pune, India

Achievements/Tasks

- Developed Full-Stack Applications (MERN Stack) : Contributed to the development of web applications using the MERN stack (MongoDB, Express.js, React, Node.js), ensuring seamless integration between front-end and backend. Developed RESTful APIs to support the front-end interface and enhance website functionality. Implemented CRUD operations efficiently to manage data in MongoDB, and ensured smooth data flow between server and database
