PROJECTS

Todolist App Full Stack

Next.js, Node.js & Express Backend, MongoDB Database Built on the powerful MERN stack, our application boasts a Next.js frontend for a dynamic user interface, while the backend, powered by Node.js and Express, ensures robust functionality.

Blog App | Full Stack

Blog App Powered by React, Node.js, Express, and MongoDB

- The MERN Blog App project aims to provide a feature-rich and user-friendly platform for bloggers to share their thoughts and engage with a community of readers.

boAt website Clone | Frontend

Crafting a Stylish Boat Website Clone with HTML, CSS, and JS

- In collaboration with four talented friends, we recreate a stunning clone of a boat website. As the primary contributor for the homepage, I took charge of crafting an engaging user experience.

Portfolio webpage | Frontend

Creating a stylish portfolio website clone with HTML, CSS, JavaScript.
